OUR JOURNEY TOWARDS A SUSTAINABLE FUTURE

For a future worth living, we need to be serious about sustainability. And that is precisely what we, as Europe's largest supplier of promotional products, are. Together we are stronger, so we invite you to join us on this journey towards a more sustainable future. We do this by promoting and offering an ever-increasing collection of safe, compliant promotional giveaways, gifts and corporate apparel with the people and planet in mind.

A HOLISTIC APPROACH TO SUSTAINABILITY

We turn our words into clear actions. That is why we have developed a holistic multi-year strategy embedded in four of the United Nations Sustainable Development Goals (SDGs). This way, you can enjoy the art of gifting sustainable products and also be sure that they are developed and produced in an equally responsible manner. It means that our core challenge is not only to create sustainable products and branding techniques. We also take responsibility at all levels in our organisation and our supply chain.

VISION 2025

The overarching goal of our holistic multi-year strategy is based on SDG 12: Responsible consumption and production and is translated into three strategic pillars: People, Products and Processes. We continue to increase the use of (GOTS, GRS, FSC certified) organic and recycled materials and sustainable branding techniques in all our product categories. And although change comes step by step, our aim is high. By 2025, we want all newly launched products and packaging to contain sustainable materials.

People

As part of SDG 8 Decent work and economic growth, we build a more transparent supply chain and support our vendors to develop sustainable labour conditions. We want everything to be crystal clear for you and aim for fully traceable supply chains for our tier 1 and 2 vendors by 2025. As a member of Amfori, we trade with purpose and work towards a future in which all product development takes place at third party audited vendors.

Products

Healthy underwater life is essential since it is the most diverse and important ecosystem that regulates the climate and absorbs carbon emissions. Based on SDG 14 Life below water, we focus on using sustainable materials such as recycled plastic instead of virgin plastic in our products.

Process

Guided by SDG 13 Climate action, we improve our performance by measuring the carbon footprint of our European facilities and our products. To do this, we partner with Nature Office, which helps us reach our goal of 50% CO2 emission reduction from our products and production by 2025.

For more information on the sustainable development goals, scan the QR code.

HIGHLIGHTS FROM OUR GREEN CONCEPT COLLECTION

H2O Active® Bottles

We partnered with Prevented Ocean Plastic for our UK-made H2O Active® bottles. They offer recycled plastic collected from coastal areas at risk of ocean plastic pollution. By buying these bottles, you indirectly prevent plastic from entering the ocean.

ELEVATE NXT

Elevate NXT

The promotional apparel and bags of Elevate NXT are fully GOTS or GRS certified, from the threads to decoration inks. You are 100% assured of a sustainable product.

FROM PET UMBRELLAS TO FSC® CERTIFIED PAPER

In each category, we offer sustainable alternatives. Think of recycled PET umbrellas and bags to pens made of recycled bottles, bamboo or wheat straw. We also offer an increasing range of recycled paper products and notepads, memo blocks and sticky notes from FSC® certified paper. So you can always make a sustainable choice.

The mark of
responsible forestry

Americano® & Authentic recycled drinkware

A part of our reusable Americano® tumblers consists of 100% recycled plastic. The ones that, for now, still consist of virgin pp are mono-material and thus easy to recycle. The same goes for our Authentic range of recycled glassware.

ICON INDEX

WEBTECH™

Moisture management is achieved at the Yarn stage, where the microfine yarns create a capillary action to channel sweat away.

WINDPROOF

The product's ability to block cold air flow from permeating the fabric.

WICKING

Unique yarns or fabric finishes that transport moisture to the outer surface.

THERMALTECH

Stay warm and feel comfortable with a breathable insulated membrane, and resistance barrier to extreme elements.

**UV PROTECT
UPF 15-39**

Product provides protection from UV rays. UPF value represents the fractional amount of sun's harmful UV rays that pass through a fabric.

**SEAM
SEALED**

Seam sealed: Permanently covering the inner seams with waterproof tape for long lasting waterproof protection.

SNAG RESIST

Fabric is engineered to prevent snagging.

CARETECH

The skilful blending of natural and man-made yarns results in fabrics that have easy care properties.

**WATER
REPELLENT**

Fabric surface is treated to repel water.

BREATHABLE

Products allow moisture to escape from the body.

**ANTI-
MICROBIAL**

Unique finish that controls bacteria growth, prevents odours and maintains garment freshness.

SHIELDTECH

Protect yourself from wind and rain. This technology offers complete comfort in a variety of conditions.

WATERPROOF

Products made of waterproof materials to keep moisture out.

**3 LAYER
BONDED**

3 Layer bonded: Three materials of differing characteristics, are joined together, creating a composite fabric with superior performance.

STRETCH

Fabric content provides stretch allowing for a more comfortable fit.

REGULAR FIT

Not too loose. Classic cut that follows the shape of the body with ease of movement.

WATER RESISTANT

Fabric finishes are used to resist moisture penetration.
